Title: The Best
**Project members**:
Hartland Brown, Lauren McIntire, Joshua Nguyen, Sasha Farhat, Anthony Keydel,
Jacob Hans

Project Tracker:
Asana
http://www.asana.com

Repository:

      https://github.com/JacobHans/TheBest

Deployment:

      http://jacobhans.pythonanywhere.com

      The deployment environment used was pythonanywhere which incorporates a free deployment platform for a few months. After deploying our site through this platform, we realized that they do not support websockets so the realtime messaging system that we developed cannot be run on their site. However, every major requirement is still able to be seen on the site through pythonanywhere such as being able to message others on the site and posting/reading forum posts on the site.

Contributions:

#1 JacobHans	#2 lamc8684
